

# SPECIAL SAFETY TRAINING BULLETIN

## STOP THE BLEED: Free Training for School Employees

### Did You Know?

**Around 40% of all trauma-related deaths worldwide are due to bleeding.**

Hemorrhage is the most common cause of preventable death in trauma.

### You Can Save A Life

**A free 2-hour training can be the difference between life or death.**

- ◆ An onsite class provided by Stop The Bleed experts can help you save someone else... or yourself, from bleeding to death.
- ◆ Classes can be scheduled according to your district needs and can include as many employees as you want.
- ◆ School nurses and other EMT qualified employees can also take the free train-the-trainer class, so you can continue training on your own.
- ◆ Free tourniquets are provided to districts once training is complete.

### BLEEDINGCONTROL.ORG

BleedingControl.org is an initiative of the American College of Surgeons and the Hartford Consensus and contains diagrams, news, videos, and other resources contributed by a variety of other private and nonprofit partners. The free resources are available to help prepare you in the event you are witness to massive bleeding from any cause, but particularly in situations where first responders may be delayed.

### To arrange a class or get more information:

Contact **Kenneth Luke**, 530-225-7944, [Kenneth.luke@dignityhealth.org](mailto:Kenneth.luke@dignityhealth.org)  
Disaster, Base Station, & Infectious Diseases Coordinator,  
Dignity Health Mercy Medical Center Redding.
