

Health Savings Account (HSA) Update

Do you have a family HSA? Please take note of this change.

- The IRS has reduced the 2018 maximum contribution limit for family coverage by \$50.
- Your contributions (including what the company contributes) can't exceed **\$6,850** in 2018.
- If you've already contributed the original maximum (\$6,900), you'll receive a \$50 refund.

This is the only change to your HSA coverage at this time. If you have individual HSA coverage, your limit has remained the same.
